Hello Sergeant Callahan,

I went to er last night as my eye was worsening.

I have multiple fractures in my face.

Attached is the medical report and photos/video.

You said if I had injuries that were beyond a black eye, but a a fracture etc... to let you know? It's hard to remember all the details from yesterday.

You can also hear him calling me a "kike" partially in the video but it cuts off.

Thank you,

Justin Horn

Mr. Horn,

I'm glad you sought medical treatment, as advised.

Based upon the new information you've provided, you have two options. You can proceed as I instructed you last night and obtain a private criminal complaint, giving the new information along with the information we had last night, to the district attorney's office and they will proceed from there. The second option is, if you are not satisfied with a private criminal complaint, you could call 911 and have an officer come back out to you. Advise that Officer that myself, upon consultation with the Central Detective division, advised you that you could call 911 and make an additional police report stating the new information. The officer will contact Central Detectives to have you interviewed.

Either way should have the same outcome. The appropriate charges will be filed.

Best of luck and I hope you have a positive resolution.

Sgt. John Callahan #8799
